

Outlook is Not Responding in QuickBooks

When you are trying to **Send emails** from **QuickBooks to Outlook** says "**Outlook is Not Responding**".

Outlook is used as an email manager, you can integrated Outlook with third-party windows and Online apps to provide them the email functionality.

Causes

- You are not running QuickBooks with Admin rights
- Microsoft Outlook is already running in the background
- MAPI32.dll file is damaged
- Incorrect email settings

Step to Fix QuickBooks Gmail Not Working Issue

- 1** QuickBooks is Set to Run with Admin Rights
- 2** Verify Email Preferences for QuickBooks
- 3** Repair QuickBooks Desktop and Outlook Application
- 4** Verify Internet Explorer's Email Preferences
- 5** Repair Damaged MAPI32.dll File
