

QUICKBOOKS COULD NOT CREATE THE NECESSARY PDF FILES

QuickBooks PDF Converter helps to convert QuickBooks reports and forms into Adobe Portable Document Format Files (PDF).

"QuickBooks could not save your form or reports as a .pdf" when you try to create, email or print a report

Causes

PDF file component is missing

PDF converter become offline

Connectivity issue

Printer driver host stopped working

Possible Steps to Fix QuickBooks Could Not Create the Necessary PDF Files

1 Reinstalling Microsoft XPS

Click on the Windows or Start button

Control panel and then System group

Click on uninstall/change a program

Turn windows features on

Make sure, XPS services and the XPS viewer are enabled

2 Download and Run QuickBooks PDF and Print Repair Tool

Go to Intuit website download QuickBooks PDF and Print Repair Tool

After the installation is done, then Run tool

After this, you can try to save the PDF file
