

QUICKBOOKS POINT OF SALE MULTIUSER

Here's you learn how to "Set up Multiple users with access to QuickBooks Point of Sale company file". In Multi User mode, connect server and a client workstation.

Set up Multi User Mode in Point of Sale

1 Set up Folder Permissions

→ Locate company file folder, Use of Windows File Explorer

→ Click on company file folder >> Select Properties

→ Sharing tab >> Advanced Sharing >> Share this folder

→ Permissions >> Add

→ QBPOSdbsrvuser >> OK

→ QBPOSdbsrvuser, then Full Control

→ Select Apply >> OK

2 Switch the server to Multi User Mode

Go to File menu → Full Control

Switch Company File to Multi User Mode

3 Configure the Windows Firewall
